Among the few things that have not advanced in price in the last half century is the entrance or matriculation fee at the University of Michigan. In 1863 it was \$10 for residents of Michigan and \$25 for nonresidents, and in 1921 it was exactly the same. The annual fee for tuition here advanced somewhat, however. In 1921, \$10 a year was paid for a full literary, law, medical or civil and mining engineering course, while now the annual fees run from \$10 to \$40.

Undeterred by this failure the mission returned a few years later, thanks to its efforts, the Eskimoes of Labrador is now a peaceful and faithful Christian as one could wish to meet. The quality of truthfulness, indeed, he carries to almost absurd lengths. If he makes an accidental mistatement, it is said he will apologize for telling a lie, and if he asks for credit at a store and his request is refused, but on further consideration granted, he will not express gratitude, but will say: "Why did you tell me a lie at first?"—Detroit News.

Give It Gude's Pepto-Mangan —For Thirty Years Doctors' Favorite Tonic.

Children that grow too fast and play too hard or perhaps work too hard at school (oh, yes, some children do work hard at school) become pale and a little run-down, and then mothers and fathers become worried about this. The youngsters do not eat with their usual big appetites, and so they become thin and tire out easily. There is a simple and good remedy for this. It is Gude's Pepto-Mangan, the tonic rich in a certain form of iron that is readily absorbed by the system. Gude's Pepto-Mangan will soon put the color back into the children's cheeks and give them the kind of an appetite every mother loves to see. It is sold by druggists in two forms—liquid and tablet—and is absolutely safe to give to any child. Ask your home doctor what he thinks about Gude's Pepto-Mangan. Advertisement.
